I.0 PROGRAMME HISTORY AND GENERAL INFORMATION

Item	Description							
Programme Name	The Kenya Governance Support Programme (KGSP) 2010-2016, Public Finance Management Component							
Programme Aim	The project aimed to support governance and public financial management reforms by offering financial and technical support. The support was expected to enhance accountability and transparency in the public sector, strengthen tax administration, improve audit and oversight of public resources and entrench fiscal decentralization							
Date of Signing the Financing Agreement	December, 2010							
Revision Date of the Financing Agreement	21 st February 2014	Reason	The midterm review in 2013 recommended realignment of the Programme to conform to the new PFMR Strategy 2013-2018					
Commencement Date of the Programme	March, 2014							
Completion Date of the Programme	31 st December, 2015	1st extension	Reason	2nd extension	Reason			
		30 th April, 2016	There was need to extend the programme to allow completion of pending activities	31 st December, 2016	There was need for a further extension to allow completion of the programme			
Programme Management	Government of Kenya through the PFMR Secretariat							
Financed by	The Royal Danish Embassy							
Implementing Agencies and General Comments	The KGSP PFM component 2010-2016 supported the Office of the Auditor General, Office of the Controller of Budget, Kenya Revenue Authority and the National Treasury. Support to the National Treasury targeted the Accountant General Department, IFMIS, Department, Internal Audit Department, Intergovernmental Fiscal Relations Department, Public Procurement Department and the PFMR Secretariat							
Budget	Initial Budget	US\$ 2,746,392 (DKK 15,693,668.57)	Addition al Budget to finance transition activities	US\$ 1,116,693.01 (DKK 6,381,102.91)	Budget for revised agreement (mid-term review)	DKK 36 million	Technical assistance in preparation of AFS	DKK 5 million

2.0 PROGRAMME IMPLEMENTATION

The KGSP PFM component 2010-2016 supported the Office of the Auditor General (OAG), Office of the Controller of Budget (OCoB) and the Kenya Revenue Authority (KRA) and the National Treasury. Support to the National Treasury targeted the Accountant General Department, IFMIS Department, Internal Audit Department, Intergovernmental Fiscal Relations Department, Procurement Department and the PFMR Secretariat. The following is a brief summary of how the institutions identified will apply grant proceeds in reforms that improve service delivery.

2.1 Implementing Agencies

2.1.1 Office of the Controller of Budget

The Office of the Controller of Budget is an independent Constitutional office established to oversee the implementation of budgets of both national and county governments and to regularly report to Parliament on the same, among other key functions. Being a relatively new PFM organ created by the Constitution, the Office was supported to among others, build

capacity of staff and participatory forums to effectively perform their roles, strengthen its information and communication systems and to bolster its institutional structures. The PFM Act 2012 gave the Office of the Controller of Budget more mandate to further ensure the public have information on the budget.

2.1.2 Office of the Auditor General

The OAG is mandated to audit and report on all national and county governments, Courts, Parliament and Public Debt within six months of completion of a financial year. The audit is expected to confirm whether or not public funds have been applied lawfully and in an effective way. The office was to

apply the grant proceeds, jointly co-funded with grants from the Government of Sweden in modernizing independent audit and oversight over public funds. A separate work plan was developed specifically targeting the Office of the Auditor General.

2.1.3 Kenya Revenue Authority

The KRA is the main Government revenue collection agency accounting for over 96% of Government ordinary revenues. KRA was expected to play an important role in helping County Governments collect local revenues. Although the Government has witnessed vast improvements in revenue collection over the past 10 years, KRA has not achieved its optimal collection levels partly

because its systems are not fully modernized. The Danish support was to help deepen KRA's modernization programme by supporting its Data Warehouse and Business Intelligence Project. The Data Warehouse was to integrate all internal information systems and strategic external systems with a view to providing fact based business intelligence that will improve

management's decision making ability and a means for monitoring business performance and trends. The Project was expected to achieve a single and holistic view of the tax payer and hence enable KRA detect

fraudulent behaviour and business risks. Overall, the Project was expected to lead to enhanced revenue, increased efficiency and improved business intelligence

2.1.4 The Accounting Services Department

The Accounting Services Department has the mandate to plan, develop and implement government accounting policy, systems and procedures. As part of its mandate, the Department facilitated the establishment of the Public Sector Accounting Standards Board (PSASB). The Board was to provide a framework and set generally accepted accounting standards and prescribe

minimum standards for maintenance of proper books of accounts for all levels of Government. To help the Department actualize its reform programme, the Danish support was to be channelled towards the full establishment of the Public Sector Accounting Standards Board (PSASB) and the consolidation of Public Accounts.

2.1.5 The Public Procurement Department

The Public Procurement Department (PPD) is charged with the responsibility of *inter alia* development, guidance and interpretation of policies on supply chain management for use by the public sector. It also administers the scheme of service of

supply chain management personnel in the public sector. In Kenya, public procurement is governed by the Public Procurement and Assets Disposal Act, 2015 and the Regulations thereof pursuant to Article 227 of the Constitution.

2.1.6 Internal Audit Department

The Internal Auditor General executes his mandate through the Internal Audit Department domiciled at the National Treasury. The Department assists in the management of public resources appropriated by Parliament and enhances transparency, accountability and governance through audit committees. As part of the strategy to modernize operations, the Internal Audit Department has undertaken a number of reforms. These reform initiatives

aimed at moving away from regularity and compliance audits and adapting more value adding audit techniques. The Department's reform priorities which were to be supported under the Danish funding include strengthening the policy for internal audit and risk management and building the capacity of internal auditors and audit committee members at both the National & County Government levels.

2.1.7 Inter Governmental Fiscal Relations Department

With County Governments in place, the burden of decentralization agenda was undoubtedly heavy and required increased support. The National Treasury has created a fully-fledged Department for Intergovernmental Fiscal Relations to handle

matters of fiscal decentralization. Through the Danish support, the Department was to be assisted to among others, develop a communications strategy, carry various stakeholder activities and strengthen its operations.

2.1.8 Integrated Financial Management Information System Department

The IFMIS department has the mandate of automating and integrating PFM systems within Government so as to facilitate efficient and effective execution of all financial management processes, eliminate risks and enhance security. Being a complex project, IFMIS requires a lot of planning, consultation, sensitization, commitment and

support from all stakeholders. Some of the priority areas which were to be supported under the Danish funding included revision of the Standard Chart of Accounts, enhancing support for IFMIS users in the Counties and building capacity of IFMIS users on public finance management.

2.1.9 Programme Management and Coordination

The PFM Reform Secretariat's broad role is to carry out comprehensive planning, monitoring, evaluation and communication of PFM reforms. Towards the fulfillment of these roles, the Secretariat was to be assisted to update the PFMR Strategy, effectively communicate the reforms and to effectively

coordinate reform activities. The Resource Mobilization Department plays a part in management of bilateral grants/loans and servicing projects with funds. The department was to be equipped to facilitate timely disbursements to projects

2.2 Planned Activities and Budget

This section presents the activities planned for by implementing agencies under the KGSP Public Finance Management Component and the budget. The section further presents budget implementation analysis.

2.2.1 Programme Implementation

Office of the Controller of Budget			
S/no.	Planned Activities	Initial Budget	Revised Budget*
1.	Public participatory forums to effectively participate in the budget execution process	6,000,000.00	11,245,499.00
2.	Training of OCOB Staff	12,500,000.00	649,300.00
3.	Training on Information security (20 officers)		
4.	Train Audit Committee members (5 members)		
5.	Financial Analysis training (47 officers)		
6.	Train in programme and performance budgeting (60 officers)		
7.	Train on integrity in public financial management (50 staff)		
8.	Media engagements to enhance sensitization of the public on budget implementation	1,500,000.00	600,000.00
9.	Revamp the OCOB website to accept SMS	500,000.00	2,450,000.00
10.	Enhance open forum in OCOB (Intranet)	500,000.00	1,500,000.00
11.	Enhance public access to OCOB reports via mobile application	500,000.00	1,250,000.00
12.	Procure computers to enhance reporting by County Budget Coordinators and accessing of IFMIS at the County level	5,000,000.00	6,419,850.00
13.	Develop and implement a disaster recovery plan for OCOB	4,000,000.00	11,242,661.00
14.	Survey on efficient use of resources at national and county level to build OCOB advisory capacity in collaboration with KIPPRA	10,000,000.00	14,600,000.00
15.	Adobe in-design software and training on data analysis and report writing on budget implementation	0.00	1,594,000.00
	Total	40,500,000.00	51,551,310.00
	Actual Expenditure		51,551,310.00
	Utilization (%)		100.00%
Office of the Auditor General			
Funded under Support for the OAG Reforms and Modernization Programme Agreement			
S/no.	Planned Activities	Initial Budget	Revised Budget
1.	Development of ICT and ICT Skills	19,974,780.00	19,974,780.00
2.	Audit methodology and Audit Skills	46,525,220.00	47,540,633.00
3.	Change Management	8,500,000.00	8,500,000.00
	Total	75,000,000.00	76,015,413.00
	Actual Expenditure		76,015,413.00
	Utilization (%)		100.00%
Kenya Revenue Authority			
S/no.	Planned Activities	Initial Budget	Revised Budget
1.	Capacity building on Business Analysis, Project Management Certification, Data Warehousing Fundamentals, Business Case	12,800,000.00	9,330,000.00

	Development & Change Management		
2.	Preliminary workshops (to develop Business & Technical requirements) for the establishment of DW&BI and conduct a due diligence mission	10,800,000.00	14,270,000.00
3.	Acquisition of a data-warehouse solution (co-financing between Royal Embassy of Denmark, Sweden & Government of Kenya)	76,400,000.00	76,400,000.00
	Total	100,000,000.00	100,000,000.00
	Actual Expenditure		100,000,000.00
	Utilization (%)		100.00%
Accounting Services Department			
S/no.	Planned Activities	Initial Budget	Revised Budget
1.	Equip the newly established Public Sector Accounting Standards Board Secretariat	5,000,000.00	7,500,000.00
2.	Develop Standards, Templates & Train Accountants and Internal Auditors	25,000,000.00	38,779,000.00
3.	Public Accounts Cons	50,000,000.00	104,394,059.00
	Total Cost	80,000,000.00	150,673,059.00
	Actual Expenditure		150,673,059.00
	Utilization (%)		100.00%
Public Procurement Department			
1.	Revision of the PPD Act 2005 and Regulations	10,000,000.00	3,480,000.00
2.	Stakeholders' Consultative Forums on revision of the Law	7,420,000.00	16,824,255.67
3.	Capacity building through equipping the Department	0.00	4,676,244.33
	Total	17,420,000.00	24,980,500.00
	Actual Expenditure		24,980,500.00
	Utilization (%)		100.00%
Internal Audit Department			
S/no.	Planned Activities	Initial Budget	Revised Budget
1.	Audit working tools (policy and guidelines, M&E Framework)		
2.	Treasury circular on Institutional Risk Management Policy Framework in place		
3.	Guidelines on implementation of Institutional Risk Management Policy Framework in the Public Sector Internal Audit manual in place	9,500,000.00	513,300.00
4.	Capacity for Internal Auditors and Audit Committee members built at both the National & County Government levels		
5.	Train Internal Auditors in various courses:	13,500,000.00	10,578,245.00
6.	CIA, CISA, CFE, CGAP training for 30 Internal Auditors		
7.	8 Regional Workshops for field officers		
8.	Audit Governance Strategy, Ethics and Risk Management-4 Internal Auditors		
9.	Auditors in IT Auditing for Non-IT Auditors-4 pax		
10.	Auditing and controlling Oracle Database		

11	Build capacity of Audit Committee members	1,500,000.00	4,953,730.00
12	Acquire and renew IDEA software licenses, TEAMMATE software licenses, Audit Triggers	2,000,000.00	31,262,757.75
13	Procure consultants to review Government Information Systems; develop an information systems Audit Manual; Roll out an Information System Audit Strategy and Information System Security And Control	3,500,000.00	0
	Total	30,000,000.00	47,308,032.75
	Actual Expenditure		47,308,032.75
	Utilization (%)		100.00%
Inter-Governmental Fiscal Relations Department			
S/no.	Planned Activities	Initial Budget	Revised Budget
1.	Develop IGFR Department Strategic Plan	2,000,000.00	2,000,000.00
2.	Capacity building of County State and Public officers on PFM	25,000,000.00	27,000,000.00
3.	Equip the just established Department with basic tools	3,000,000.00	1,446,058.00
	Total	30,000,000.00	30,446,058.00
	Actual Expenditure		30,446,058.00
	Utilization (%)		100.00%
IFMIS Department			
S/no.	Planned Activities	Initial Budget	Revised Budget
1.	Acquisition of the Cash Management Module software	0	0
2.	Review Standard Chart of Accounts	10,000,000.00	
3.	On site and continuous training and support to counties of IFMIS users	33,000,000.00	
4.	Training on the Cash Management Module	0	8,061,768.00
5.	Enhance capacity of IFMIS staff on PFM and Strategic Leadership	7,000,000.00	5,159,640.00
	Total	50,000,000.00	13,221,408.00
	Actual Expenditure		13,221,408.00
	Utilization (%)		100.00%
PFMR Secretariat (Programme Management)			
S/no.	Planned Activities	Initial Budget	Revised Budget
1.	Programme planning, monitoring and evaluation (meetings and workshops)	7,000,000.00	3,000,000.00
2.	Programme Financial Audit/Performance Evaluation	9,000,000.00	7,064,055.00
3.	Consultancy services on the review of the PFMR Strategy 2013-2018	10,000,000.00	10,169,000.00
4.	PFMR Strategy 2013-2018 review meetings, (inception and validation) workshops, county field trips for stakeholder consultations	0	2,614,655.00
5.	Printing the revised PFM Reforms Strategy 2013-2018	1,000,000.00	1,500,000.00
6.	PFMR Newsletter & Dissemination Notes on Programme accomplishments developed	3,000,000.00	3,000,000.00
7.	Capacity building on strategic skills for	0	935,945.00

	administrative assistants		
	Total	30,000,000.00	28,283,655.00
	Actual Expenditure		28,283,655.00
	Utilization (%)		100.00%
Accounting Services Department			
Technical Assistance in preparation of Annual Financial Statements for State Organs and Public Entities

	Public Accounts Consolidation	73,192,825.00	87,873,762.97
	Total	73,192,825.00	87,873,762.97
	Actual Expenditure		87,873,762.97
	Utilization (%)		100.00%

Source: KGSP PFM Component 2014-2016 Work Plans and Financial Statements

* The main reason for the revisions of the budget was due to reallocation of uncommitted funds as at May, 2016 among implementing agencies

2.2.2 Budget Implementation Analysis

The Danish Embassy availed Ksh. 610,353,198.72 to implement the work plan. The availed budget was allocated to departments as follows, Controller of Budget (Ksh.51, 551,310.00), Office of the Auditor General (Ksh.76, 015,413.00), Kenya Revenue Authority (Ksh.100, 000,000.00), Accounting Services Department (Ksh.238,546,821.97), Public Procurement Department (Ksh.24, 980, 500.00), Internal Audit Department (Ksh. 47,308,032.75), Inter Governmental Fiscal Relations Department (Ksh.30, 446, 058.00), IFMIS Department (Ksh.13, 221,408.00) and the PFMR Secretariat (Ksh.28, 283,655.00). On aggregate out of the Ksh. 610,353,198.72 availed, Ksh. 610,353,198.72 was spent representing an absorption rate of 100.00%.

3.0 KEY ACHIEVEMENTS AND WAY FORWARD

The main objective of the Programme Completion Report was to review the programme's achievements against planned activities, gaps still existing, challenges experienced, emerging issues, lessons learnt and way forward. Further, the Project Completion Report sought to document how the support to implementing agencies has improved on PFM systems at the national and at the counties. This section presents the key findings including gaps and way forward and the conclusion in relation to lessons learnt and sustainability of the programme achievements

3.1 Findings

The implementation of KGSP PFM Component brought about significant progress in Public Finance Management (PFM) in Kenya as outlined under the various programme objectives below:-

- i. Programme Objective: To produce accurate, accessible and timely government wide financial information and reports with clear accountability:** Public sector entities are able to produce quality and comprehensive financial reports and avail for audit organised financial information. The Office of the Auditor General as a result has been able to cover wide scope of audit and present more factual findings within a relatively shorter time. As a result, the number of unqualified audit opinions for financial year 2013/14 increased from 12% to 26% compared to the previous year. This is attributed to the support provided to public Sector entities that has enhanced transparency and accountability. However, there is limited capacity to implement the prescribed accounting standards. As a way forward, it is important that on the job training on preparation of financial statements in the new prescribed format is sustained.
- ii. Programme Objective: To enhance efficiency, transparency, fair competition, value for money and controls in public procurement at national and county levels:** The Public Procurement and Disposal Act, 2005 was reviewed to align it to the Constitution 2010 and to make it more effective as a tool for achievement of value for money in public procurement. The new PPAD Act 2015 has strengthened procurement procedures and improved transparency and accountability. However, senior management in MDAs and counties (CECs, Chief Officers and Directors) have not been sensitized on the new PPAD Act 2015 and the regulations. Training was only done for technical officers. There is need to train top management who make key policy decisions in MDAs and Counties.
- iii. Programme Objective: Establish effective internal controls in Public Finance Management:** The capacity of internal Audit in use of computer Aided

Audit Tools and Techniques has been enhanced through the programme support. However, a gap exists in that Audit committees are not yet constituted. As a

way forward, there is an urgent need to constitute internal audit committees and train them on how to follow up on audit.

iv. Programme Objective: An excellent, secure, reliable, efficient, effective and fully IFMIS: Though IFMIS is operational in all MDAs and Counties, the system remains a standalone. There is need to integrate IFMIS with other PFM systems as stipulated in the revised PFM reforms Strategy 2013-2018. Further, development and configuration of the cash

management module in IFMIS is not complete. There is need to support completion of the configuration to make the module operational. Further, MDAs and counties need on the job training/support on the use of cash management module once it is completed and rolled out.

v. Programme Objective: To build capacity, institutional strengthening and enhance communication: The Office of the Controller of Budget has been strengthened through provision of computers and fire proof cabinets. This has enhanced reporting and communication and safe keeping of records. On public participation during the budget making process at the counties, the sensitized public are now able to provide social accountability audit for budget implementation at county level.

Further through the training on Adobe in-design software, Office of the Controller of Budget staff are now able to produce impactful budget implementation reports. This has been occasioned through better report layout and design. However, there exists a gap in that Public Participation sensitization forums have not been fully undertaken in all regions. The Office of Controller of Budget ought to ensure that the sensitization forums are scaled up to cover all regions in the country.

vi. Programme Objective: To strengthen the capacity of national and county governments in public finance management in order to ensure successful implementation of devolution: Through capacity building by the Inter governmental Fiscal Relations Department (IGFRD), counties are able to prepare Programme Based Budgets

(PBBs). However there is need for more training on PBB at the counties. Further, IGFRD does not have a communication plan for the department. As a way forward, there is need for IGFRD to develop and implement a communication plan. This would assist articulate better, issues on fiscal decentralization.

vii. Programme Objective: To ensure efficient co-ordination, planning, monitoring and communication of implementation of the PFM reform

programme: To strengthen coordination among agencies on implementation of PFM reforms, the PFMR Secretariat has formulated a draft reporting framework.

The reporting framework is expected to standardize reporting among implementing agencies and thus assist the Secretariat to report timely and comprehensively progress on Project implementation. However, the framework is yet to be finalised as consultation with key stakeholders is ongoing. Further, The PFM Strategy has not been adequately financed

for implementation. Though enormous resources are required to implement the Strategy, only the Danish Embassy has committed DKK 13 million to finance some interventions in the Strategy. There is need for the PFMR Secretariat to source for funding from GOK and other DPs to fully implement the revised strategy.

3.2 Conclusion

3.2.1 Lessons Learnt and Way Forward

- i. Funding PFM Reforms:** Though many reform activities had been proposed in the implementing agencies work plans under the KGSP programme, not all activities were implemented due to lack of funding. This narrowed the expected benefits in
- ii. Monitoring and Evaluation Framework:** The KGSP design provided for implementing agencies to provide detailed reports to the PFM Secretariat for consolidation. Challenges were experienced in that the reports were not detailed enough and thus a hindrance to preparing comprehensive reports. Further, the reporting formats used by the agencies were not standard making it difficult for
- iii. Communication of PFM reforms:** Though the PFMR Secretariat has done a lot to communicate reforms among key stakeholders, lack of a communication Strategy has curtailed effective
- iv. Implementing the Revised PFMR Strategy 2013-2018:** In some instances departmental work plans were not aligned to the Strategy. The consequence is that there is a risk of not achieving the Strategy's objectives. To ensure that the

transforming public finance management had all the activities implemented. The Kenya Governance Support Programme was majorly funded by the Embassy of Denmark. As a way forward, there is need for more support to finance PFM Reforms.

the Secretariat to consolidate the reports. This is majorly attributed to lack of capacity within the agencies and lack of an M&E reporting framework at the PFM Reforms Secretariat. As a way forward, there is need for the PFMR secretariat to take a lead role in capacity building agencies on reporting. Also the Secretariat should design and implement an M&E reporting framework.

communication of PFM reforms. As a way forward, there is need for the Secretariat to urgently formulate and implement a communication Strategy.

PFM Reforms Strategy is implemented, consolidated work plan anchored on the Strategy have been developed. Annual work plans are derived from the consolidated work plans. This ensures that reform activities implemented are geared

towards contributing to meeting the Strategy's objectives.

3.2.2 Sustaining Programme Achievements

To sustain the benefits realised from the programme, there is need for sustained on the job training for staff in the areas of Financial reporting, Budget and planning, Procurement, Auditing, Tax administration, County own source revenue and coordination of PFM reforms. Further, there is an urgent need to address the gaps still existing after programme implementation. The gaps includes limited capacity to implement the Public Sector Accounting Standards, operationalizing the cash management module in IFMIS, awareness on the PPAD Act, 2015, ICT based financial management, monitoring

budget implementation, public participation in the budget making process, data quality in tax administration, monitoring budget implementation and funding the revised PFM Reforms Strategy 2013-2018. As a way forward, to ensure sustainability of the achievements and full realization of the expected benefits from the programme, the gaps have already been factored in the revised PFM Strategy 2013-2018 and factored in departmental work plans under implementation. There is also need for further support to ensure that the gaps from the programme are implemented
